# United Way

Lee County  
children have  
food. Cancer  
patients have a  
ride to treatment.  
And it's all  
thanks to you.

When you're part of the United Way of Lee County, your contributions are used to help our neighbors in ways that are needed most in our community.

Better yet, your contributions are often multiplied through matching grants, medical discount programs and other ways that provide an even greater impact than you ever imagined.

You provide shelters, where battered women can find a safe refuge ... daycare, so struggling families can search for work and get on their feet again ... relief after natural disasters, something we all know far too well ... and so much more.

What you also provide could be most important of all ... and that is *hope*.

Need help and  
don't know  
where to turn?  
Just Dial 211.

Thanks to corporate sponsors in our own community, you can get referrals for emergency food, housing, medical care and all kinds of other assistance every day, around the clock.

## Want to get involved?

**Give.** Your contributions improve life for neighbors ... and, in the process, improve life for us all.

**Advocate.** Getting the word out requires all people across our community supporting the cause.

**Volunteer.** It's no exaggeration: Because of volunteers, people's lives are transformed and saved. And there are enormous opportunities for everyone to help.
